Portfolio: reecewastaken.github.io/portfolio-reece/

EDUCATION

UNIVERSITY OF NORTH GEORGIA — Dahlonega, GA
Bachelor of Science in Cybersecurity, Cum Laude — May 2026
GPA: 3.5 | Relevant study: Network Security, Digital Forensics, Penetration Testing, Security Analysis

WORK EXPERIENCE

THE HOME DEPOT — Dawsonville, GA
Sales Associate (Part-Time) — 2021 – Present

- Supported daily store operations and assisted customers with product selection, questions, and issue resolution while completing a full-time cybersecurity degree.
- Balanced long-term part-time employment with academic responsibilities, demonstrating dependable scheduling and time management.
- Mentored new associates, shared product and process knowledge, and collaborated with coworkers to maintain efficient customer service.

FORSYTH COUNTY SHERIFF'S OFFICE — Cumming, GA
Student Intern — Aug 2019 – Mar 2020

- Adapted to different professional teams and settings while developing clear communication and workplace professionalism.
- Rotated across multiple county sites, including Superior, State, and Juvenile Courts, gaining exposure to public-safety and court operations.
- Shadowed 911 dispatch personnel to observe emergency communications, coordination, and decision-making in time-sensitive situations.

TECHNICAL PROJECTS

PHISHHOOK — HYBRID AI PHISHING DETECTION | Lead Developer — Jan – May 2026

- Developed a phishing detection system combining baseline machine learning, OpenAI, and Gemini classifiers.
- Implemented ensemble majority voting and evaluated accuracy, precision, recall, F1-score, and confusion matrices.

WANNACRY RANSOMWARE ANALYSIS — Course Project

- Analyzed WannaCry infection and encryption behavior in an isolated Windows 7 virtual machine.
- Documented technical observations and researched the malware's origins, attribution, and global impact.

USB HID INJECTION & PHYSICAL KEYLOGGING — Personal Project

- Built custom keystroke-injection payloads and tested a Raspberry Pi-based passive keylogger in a controlled setting.

LEADERSHIP & ACTIVITIES

NATIONAL CYBER LEAGUE (NCL) — Individual Game — Spring 2025

- Ranked 466th of 8,573 competitors nationally (95th percentile); achieved 100th percentile in Scanning & Reconnaissance and 96th percentile in Forensics.

CYBER HAWKS CLUB — University of North Georgia — 2023 – 2026

- Competed in the NSA Codebreaker Challenge each year as a Cyber Hawks member, contributing to the university's strong national standing, including a second-place club ranking.

ADDITIONAL

Technical Skills: Cisco IOS/CLI, Packet Tracer, TCP/IP, subnetting/VLSM, VLANs, OSPF, static routing, STP; Python, Bash, PowerShell, SQL, C#; Linux, and Windows

Security Knowledge & Tools: NIST CSF, MITRE ATT&CK, vulnerability assessment, reconnaissance, log analysis, incident response fundamentals, digital forensics; Nmap, Nessus/OpenVAS, FTK Imager, Registry Explorer, Volatility

Certifications: GIAC Foundational Cybersecurity Technologies (GFACT) | Cisco CCNA (in progress)
